| Degree: MASTER IN PSYCHOLOGY Credits: 52 | | CURRICULUM | |
| Program: COUNSELING PSYCHOLOGY | | | |
| <p>Description: The master Program in Psychology is committed to an efficient rendering of services in private and public settings. The master program began in 2000 in response to an existing need to train professionals to assume a multiplicity of roles in the area of mental health services. The academic and professional orientation of the program enables the students to critically study the different theories and therapeutic techniques in order to apply them to a diversity of clients. It also offers clinical experience in order to prepare students to present their services to different populations.</p> <p>Since the program prepares students to serve as licensed psychologists, the courses, laboratories and field practicum emphasize the application of concepts and techniques to improve the quality of life of the individuals, and groups or the organizations in which they will be working.</p> | | | |
| Course Code | Name Course | Credits | Requisites |
| Courses in Psychology | | | |
